## MoU inked

Our correspondent

**FAISALABAD:** The National Textile University (NTU) and Asian Institute of Industrial Air (AIIA) Monday signed a Memorandum of Understanding (MOU) to provide the latest facility of compressed air engineering to the NTU.

**NTU Rector Prof Dr Tanvir Hussain** told the participants of the ceremony that under this agreement the AIIA would supply the sophisticated and latest machinery and other instruments to the NTU of international standard brand while the Rasitgar Group will extend help for the installation of this modern machinery and equipment in the NTU.

**He said** the NTU lab will provide research education and incentives for the utilisation of lab compressor while the AIIA would provide monetary assistance for the 'practicable research' to textile sector in Pakistan. He expressed confidence that the textile sector of the country would surely avail the benefits of this 'latest facility' of compressed air engineering.

Dr Yasir Nawab, Dean, Engineering Technology NTU, Dr Arshad Ali, former Director General Higher Education Commission (HEC) and Chief Executive, Asian Institute of Industrial Air, Imtiaz Rasitgar, Zufiqar Rasitgar and others also attended the ceremony.
